TCM PRO

ROUND SLING MACHINERY

### Tube Contraction Machine Pro (TCM Pro)

- Installs a wide range of seamless cover widths and thicknesses onto assembly tubes quickly and efficiently without damaging the cover material
- Processes a wide range of covers compatible with the range of sling capacities and lengths produced on the RSM Pro
- Can be supplied to run sling lengths up to 18 metres
- Saves time and costs associated with manual cover preparation

**SPECIFICATIONS**

**Tube Contraction Machine Pro**

Standard Range of Sling Capacities (working load limits)	1-28 tonnes (design factor 7:1)
Standard Range of Sling Lengths	1-18 metres
Dimensions	Length 1067 cm   Width 96.5 cm   Height 117 cm
Weight	580 kgs
Standard Power Supply	220V, 3-phase, 50 Hz (Other requirements available upon request)

Due to continuous product development specifications may change. E&OE.
